Emulators gain more and more popularity nowadays As players get bored by modern MMORPGs, they start looking back on the retro console games that were blowing up teenagers' minds some ten or twenty years ago.. DolphinDolphin is a Wii and Gamecube emulator It has been ported to libretro and an alpha version of the core is available now for Windows and Linux! Version for macOS will be released at a later date.. The magic of emulators makes it possible to run old games of such legendary systems as Nintendo Classics, Game Boy, Sega Genesis, or PlayStation on the computers.. The flexibility of emulators has given rise to some software which can be played on it. [Office365 Mac Download](#)
